

Figure 2. Item Characteristic Curve of all items from the short version of Disordered Eating Attitude Scale (DEAS-s) evaluated by Item Response Theory.

Item 3: Does eating ever feel unnatural to you?

Item 4: Have you ever spent one or more days without eating or having only liquids because you believed you could lose weight?

Item 5: Do you count the calories of everything you eat?

Item 7: Do you "skip" meals to avoid putting on weight?

Item 8: Does eating make you feel "dirty"?

Item 10: Would you like to not need to eat?

θ : IRT score. $P(\theta)$: probability of a person to choose the category. P1: characteristic curve of the category 1. P2: characteristic curve of the category 2. P3: characteristic curve of the category 3. P4: characteristic curve of the category 4.

Figure 2. Item Characteristic Curve of all items from the short version of Disordered Eating Attitude Scale (DEAS-s) evaluated by Item Response Theory (cont.).

Item 12: When you eat more than usual, what is your behavior afterwards?

Item 13: I feel guilty when I eat something that I thought I should not eat for some reason.

Item 14: I quit eating a kind of food if I find out it has more calories than I thought.

Item 16: I worry about how much a certain kind of food or meal will make me gain weight.

Item 17: I am angry when I feel hungry.

Item 18: It is hard to choose what to eat, because I always think I should eat less or choose the option with fewer calories.

θ : IRT score. $P(\theta)$: probability of a person to choose the category. P1: characteristic curve of the category 1. P2: characteristic curve of the category 2. P3: characteristic curve of the category 3. P4: characteristic curve of the category 4.

Figure 2. Item Characteristic Curve of all items from the short version of Disordered Eating Attitude Scale (DEAS-s) evaluated by Item Response Theory (cont.).

Item 21: I try eating less in front of others in order to overeat when I am alone.

Item 22: I am afraid to start eating and not be able to stop.

Item 23: I dream of a *pill* that would replace food.

Item 24: I get nervous and/or lose my self-control at parties and buffets, due to a great amount of foods available.

Item 25: My relationship with food messes up my life as a whole.

θ : IRT score. $P(\theta)$: probability of a person to choose the category. P1: characteristic curve of the category 1. P2: characteristic curve of the category 2. P3: characteristic curve of the category 3. P4: characteristic curve of the category 4.
